CONTROL OPTIONS

Our broad range of controls make finding a fit for your home even easier; controlling the curtains by hand, remote or even by building automation system. With the remote you can control the curtains in any position you like. Controlling the motorised rod system by your smartphone or tablet, you can create and schedule customized room scenes that allow your curtains to operate on their own throughout the day.

Also available to order in

FOREST WIRELESS CONNECTOR

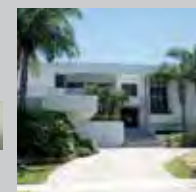

The Forest Wireless Connector is an easy way to make the motorised rod system 'smart'. This wireless remote solution works in combination with an analogue timer or a smart plug with which services as Apple Home Kit or Google Assistant become available. It is also easily incorporated into most popular building management systems, including dry contact controls.

FOREST DIAMOND SENSE REMOTE

15 Channel Remote control, possibility to control up to 15 systems individually and in group by integrated timer function or manual. Auto-On mode, when holding hand above it, the integrated LED light will automatically come on. Radio control, range up to 30 METRES. Including magnetic wall support.

BUILDING AUTOMATION

The MRS® system can be connected to any Building Automation system, by relay control.

THE WORLD
BEHIND
YOUR
CURTAINS

FOREST DESIGN SERIES

FOREST DESIGN Series

The DS® curtain Track system is for fans of a sleek curtain Track. This manually operated curtain Track system fits into any stylish interior with an eye for design.

The DS® system has the same dimensions as the Klick System (KS®). This makes it possible to use all KS® assembly components (except the end caps). The height of the Track is 11 mm and a “belly” has been created at the front so that the brackets can be mounted out of sight. The DS® Track can also be bent, making it extremely suitable for semicircular bay windows.

PRODUCT INFORMATION

- Elegant and aesthetically pleasing hand drawn Track system;
- For all types of medium weight draperies (max curtain weight 8kg per METRE);
- Colours available: white, silver or black with matching assembly components;
- Available lengths in white: 4, 5, 6 and 7 METRE (silver in 4, 5, 6 METRE & black in 5 and 7 METRE);
- Bendable; designer curtain Track can be curved for outside bends only using a 10 cm radius or continuous curved;
- Invisible ceiling brackets to fix Track flush to ceiling available;
- Quick installation with “Smart Klick” brackets for wall and ceiling applications;
- Same brackets as used with Klick System;
- Heavy duty clickable carriers - UV protected - for smooth and easy traversing;
- Especially designed for use in combination with Forest Wave System;
- Track finish: chromated powder coating with a factory applied patented dry lubricant;
- Warranty: 10 years.

FOR USE IN

Residential and/or contract market or at any location where an elegant high quality design curtain Track is required.

- 1 DS Track
- 2 DS Carrier
- 3 DS Stop carrier
- 4 DS Twist end stop
- 5 DS End cap

DS-XL LED FES – FOREST EASYFLEX SYSTEM

DS-XL LED WHITE

DS-XL LED ANTHRACITE

This unique drapery system combines a stylish design with a unique way of lighting.

DS XL® LED has been designed in such a way that it can be installed without any visible brackets, installation can be done by click or swivel brackets. Thanks to its clever electronic connection, no electrician is required.

CONTROL OPTIONS

This Track is a flexible, modular system that enables you to connect with a remote or/and building automation systems. With the remote you can control the amount of light and you have the possibility to illuminate the backside and/or the curtain Track itself.

THE DESIGN

The DS XL® LED is an elegant system for all types of medium weight draperies. Available length up to 6 METRE. Opt for a regular pleated heading or choose for a more dramatic effect for our wave system Forest Easyflex®

PRODUCT INFORMATION

- Specially designed for Forest Easyfold application.
- Easy installation, only connectors.
- Ceiling brackets and wall bracket available.
- One led strip or two led strips for extra luminosity.
- Low energy consuming led strip,eco friendly.
- Dimmable led strips.
- Lifespan of 30,000 hours.
- No soldering, clickable components for easy installation without the need for an electrician.
- Power: 15 watt/mtr (4.6 Watt/ft)
- Control by Häfele RF remote, home automation or building management system.

FOR USE IN

Domestic and contract market.

SPECIFICATIONS TRACK

- Weight 580 gr/mtr (6.26 ounce/ft)
- Aluminium extrusion.
- Size 60 x 20 mm (2.4 x 0.8 inch)

2) Regular rotating carriers.	

DS-XL MOTORISED

This unique drapery system combines a stylish design with a unique way of lighting. Many designers will work with a lighting plan with three levels: High, especially if the ceiling is vaulted or has been finished with a special material; medium, which includes wall sconces; and low, which means floor lamps and other small lights.

Our DS-XL® LED is the solution for a lighting plan on a higher level, integrating our Track to create an overall glow on the ceiling.

The DS-XL® LED is an elegant system for all types of medium weight draperies. Available length up to 6 METRE in 2 colours: timeless white and in a stylish anthracite finish, making it suitable to fit in every design.

CREATE PRIVACY

It also offers the possibility to illuminate the backside and/or the curtain Track itself enabling a higher level of privacy.

SUSTAINABLE LIGHTING

Traditional ways of lighting are very wasteful. Most of the power is wasted in the form of heat.

This is why there has been a big push to change the environmental impact of lighting. Another benefit of LED lighting is sustainability and eco-friendliness. The system doesn't use toxic chemicals and it can last for years. It has a life span of approximately 30,000 hours.

PRODUCT INFORMATION

- Designer Track for lighting and curtain Track combined;
- Especially designed for Forest Wave application;
- Simple electrical installation by means of clickable connectors;
- Ceiling brackets and wall brackets available;
- One LED strip or two led strips for extra

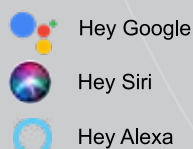

luminosity;

- LED Colour temperature: warm white 3000;
- Low energy consuming LED strip, eco friendly;
- Dimmable LED strips (120 LED's per METRE);
- LED Lifespan of 30,000 hours;
- No soldering, clickable components for easy installation without the need for an electrician;
- Power: 15 watt/mtr (4.6 Watt/ft);
- Energy label A+;
- Colours available: white and anthracite;
- The DS-XL® LED Motorised system can be integrated into any building automation system;
- The motorised Track system can be installed onto all Forest Shuttle® motors;
- Warranty: 10 years (except LED-lighting)

PRODUCT INFORMATION

This brand new curtain motor has an integrated power adaptor and only needs a mains cable;

- The RF multi receiver is now integrated in the motor itself, allowing for an even cleaner look of the system;
- The motor speed can be increased by up to 20%, allowing for speeds of up to 18 cm per second;
- The motor is able to carry curtain weights of up to 40 kg;
- **Market leading 10 year warranty**
- Touch Impulse Technology, gently pulling the curtain to open or close (standard feature);
- Integrated Emergency Control ensures manual operation of the curtain in case

of power failure;

- Modular motor, different modules can be attached for various control options: radio Frequency, Switch, Infrared, Domotics, Building/hotel automation, Serial communication, Z-wave, etc;
- Silent motor, speed: 15 cm/sec;
- Full automatic setting of the limits;
- Programming of intermediate positions possible;
- Touch Impulse sensitivity adjustable in 2 positions;
- Stack-back position programmable to every desired setting;
- Touch Impulse function can be switched on and off;
- 24 Volt DC Power Input, by using the 110- 240 Volt AC adaptor (white) and Bracket;
- Motor pulley connects motor and FMS Track;
- All brackets applicable;
- Upside down inverted motor mounting available;
- Torque: 1.8 Nm;
- Variable velocity with slow start and slow stop;
- Dimensions Motor: 70 x 50 x 280 mm (2.76 x 1.97 x 11 inch)

CONTROL

Our bestselling Forest Shuttle® system is now also available in a wireless, battery powered version. The Shuttle® iOn is perfect for areas without nearby power points.

An extensive period of research, development and endurance testing on countless of Track set-ups has resulted in the Forest Shuttle® iOn. The Shuttle® iOn's motor is fitted with an internal, removable heavy duty battery pack.

Depending on the Track size and curtain weight, the battery only needs to be charged 2 to 3 times per year. You can expect the same unique functionalities as that of the wired Shuttle® L, like Touch Control technology. The motor has an integrated Multi RF receiver, allowing for operation using any Forest remote control option.

Unique in the market The Shuttle® iOn can be used in combination with curved Tracks, which is unique in the

market. It fits all Forest motorised Track systems, like the FMS® system, FMS® Plus recess system, MRS® motorised rod system and also the DS®-XL motorised Track systems.

PRODUCT INFORMATION

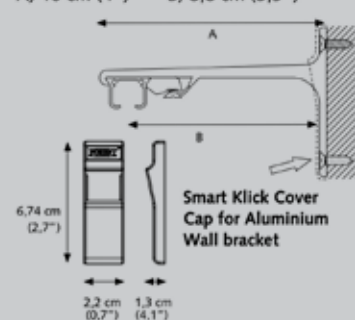

- Li-ion rechargeable battery pack;
- Suitable for curtains up to 25 kg and 8 METRE Track length (straight Track);
- Suitable for bended/curved curtain Tracks with up to 2 bends in, for example, bay windows;
- A single full charge will last up to 6 months;
- Available colours: white, black.

FOR USE IN

Hotels, offices, residences, boats and yachts, showrooms or anywhere a wireless motorised Track system is required for curtains and drapes.

PRODUCT

CCS – CORDED CONTRACT SYSTEM

PROFILE

- Weight: 202 grams per metre;
- Aluminium Extrusion 6063 T5;
- Dimensions: 20mm x 20mm.

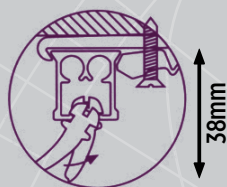

PRODUCT INFORMATION

- Highly efficient Corded System for all types of medium weight curtains;
- Quick installation with “Smart Klick” brackets for wall and ceiling applications

Easy installation
klick position tighten

Klickable Carrier

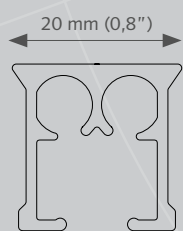

- Bendable; it can be bent and reverse bent using a 10cm radius or continuously curved;
- Heavy duty klickable carriers – UV protected – for smooth and easy traversing. Offset shape for straight hanging pleats;
- Can also be used for Easyflex;
- Maximum fabric weight: 6 kg per metre up to a maximum system weight of 40 kgs;
- Track finish: chromated powder coating with a factory applied patented dry lubricant.

FOR USE IN

- Hotels – offices – residences – boats – homes – planes or anywhere an efficient cord traversing system is required.

BENDING/CURVING

- The Track can be bent and reverse bent using a 10cm radius. Continuous curving can easily be done using the continuous curver. Also the possibility of curving for special windows, such as arches, bows and circles.

MTS – MEDI TRACK SYSTEM

PRODUCT INFORMATION

- Elegant and functional Medical Track System
- Simple and quick installation
- Bendable, both with an inside and outside bend with a 20 cm radius
- Dustproof synthetic insert strip available
- Bending Tool which can curve Tracks easily
- Colour: White
- Lengths: 5.80 m (19') and 7 m (23')
- Rail quality: aluminium, chromated, powder coated
- Factory applied patented dry lubricant

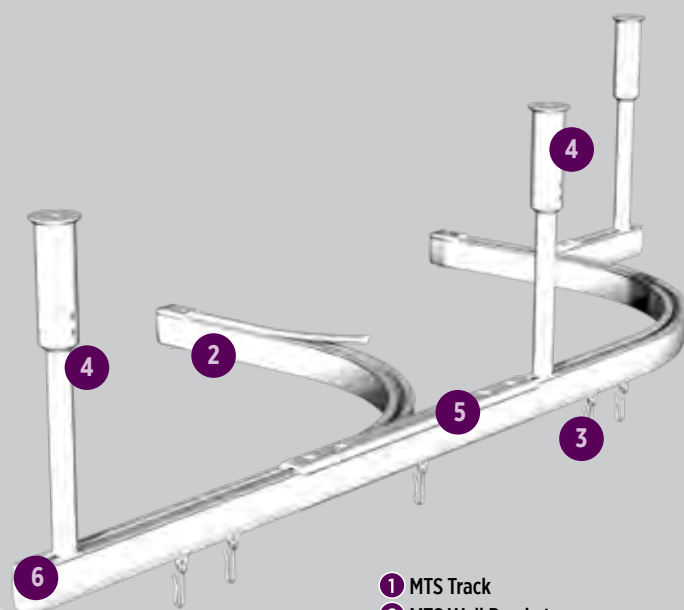

PROFILE

- Size width: 19.6 mm (0.8") 28 m
- Size high: 30 mm (1.2")
- Shown actual size 1:1
- Aluminium Extrusion
- Weight: 500 grams per METRE (5.36 ounce per ft.)

BENDING

- The Track can be curved and reversed curved in a 20 cm (8") radius. Continuous curving is also available by special order from factory only.

- ① MTS Track
- ② MTS Wall Bracket
- ③ MTS Carrier with Metal Hook
- ④ MTS Suspension Ceiling Bracket
- ⑤ MTS Track Bridge Long
- ⑥ MTS End-Cap

PRODUCT INFORMATION

- Asymmetric Reversible Multi Channel System, for use as a 3 or 2 channel Track.
- Profile thickness only 8 mm
- Easy installation thanks to 4,5 mm pre-drilled holes. For countersunk

installation, 10mm cover caps also available. A profile version without pre-drilled holes is also available

- Available in white, inox-pc and anthracite
- KS components can be used
- Forest Easyfold (FES) also applicable
- Max fabric weight 15 kg per running METRE of Track

PROFILE

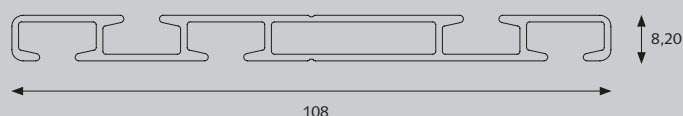

- Aluminium extrusion, powder coated, lubricated. Available in 6 METRE length.
- One side of the profile has 3 channels, asymmetrically placed, to accommodate for a full sheer curtain, and two separate blackout curtains; these blackout curtains can overlap each other to prevent light leakage. The wider the fabric panels, the bigger the overlap will become.
- The other side of the profile has 2 channels, symmetrically placed, to accommodate for a sheer and blackout curtain in a traditional set-up.

MCS 2/3 GLIDE PELMET PROFILE

- A specially developed pelmet profile, aluminium extrusion, which can be placed on top of the MCS Track during installation and secured in place. The perfect solution if no separate pelmet or curtain box has been foreseen.

BLACKOUT PROFILE

- The ideal solution to create a perfect blackout on the side of each curtain. The Velcro Hotel Profile is suitable for any Forest curtain rail system. The L shaped profile comes with pre-drilled holes every 50 cm, allowing for an easy fixation on the sides of the window. When the curtain hems are lined with Velcro loop tape, the curtain can be easily fixed against the profiles, eliminating light leakage.

CONTROL YOUR CURTAINS WITH THE FOREST CONNECT APP

Experience luxury and get the most out of your Shuttle system by adding our Wi-Fi option. Open or close your curtains with the touch of a button, using the new Forest Connect App or by third-party apps from Google, Amazon on your mobile device. Or even better speak to your curtains by using voice control. Our Shuttle Wi-Fi dongle is an add-on to new or existing Forest Shuttle systems with S, L or M motors. It simply clicks onto the motor and uses just a single cable. No further installation is required, which makes adding a Wi-Fi connection to your Forest Shuttle system as easy as 1-2-3.

With Shuttle Wi-Fi, you launch your drapery into the world of the Internet of Things, in which you can control your curtains by your mobile device, or by voice command without the need for an extra hub or a gateway. Also, it does even more than enable you to wirelessly control your curtains.

Convenience and security

Using the Wi-Fi solution, you will know the exact status of your curtains, even from across the globe. It will give you a sense of security. The system will always inform you of which position your curtains are, thanks to its two-way communication.

WI-FI DONGLE

- Add-on for Shuttle S/M and L
- Wi-Fi frequency 2.4GHz
- Control the curtains by Forest Connect App
- Forest Connect App is available for iOS and Android
- Works with Google Home, Amazon Alexa & Siri voice commands
- Timers routines are supported
- Bi-directional communication which means that you can check the status of your curtains anywhere you are in the world

CONNECTIVITY: EASY INTEGRATION INTO YOUR SMART HOME

Would you rather control your smart home via one platform such as Google Home or Amazon Alexa? The Wi-Fi module enables easy integration of the Shuttle motor into these smart home platforms. Also, the connection with virtual voice assistants such as Apple Siri, Google Assistant and Amazon Alexa also runs smoothly with the Wi-Fi module.

Set routines

The big advantage of one smart home platform is that the Shuttle motor can be connected to other smart devices such as smart lighting or the smart thermostat, so that you can, for example, set a routine / scene that increase the atmosphere or ensure energy savings. It fits seamlessly into the trend to improve the user experience.

COMFORT ON DEMAND: FOREST SHUTTLE

In today's technical world, smart homes are on the rise. This trend includes drapery hardware and Forest Shuttle® motors are a smart choice for home integration. Capable of integrating with all major home automation systems, the Forest Shuttle® is offered in 5 versions. Forest Shuttle motors are trouble-free, ultra-quiet and come with a 10-year warranty, three more reasons they are a smart motorisation choice for your smart home innovation.
